

# WHAT OUR CUSTOMERS SAY ABOUT US

*"Biopharma Group has always offered fast and reliable results in our Freeze Drying studies. Big thanks for a great team!"*

**Product Development Scientist**

---

*"We are very grateful for our collaboration with Biopharma Group and for their valuable help in the development of our lyophilization process. Their expertise and commitment played an important role in achieving results that exceeded our expectations. As a testament to our joint effort, we launched our first lyo-compatible qPCR mix - SolisFAST® Lyo-Ready qPCR Kit with UNG. We appreciate their genuine dedication to our project and look forward to continued success together."*

**Product Specialist**

---

*"Through my experience of working with Biopharma Group on various lyo projects, I can happily say that I have always been super impressed with the results that we have received! We will definitely continue to make Biopharma Group our first choice when needing to outsource freeze drying support."*

**Director of Business Development**

---

*"We have had the opportunity to work with Biopharma Group on several projects to optimize and improve freeze-drying processes. Biopharma Group has real expertise that is put to the benefit of its customers. The responsiveness of their teams and the tools used have always been highly appreciated."*

**Deputy Head of Industrial Development**

# WHAT OUR CUSTOMERS SAY ABOUT US

*“We worked with Biopharma group very intensively around Lyo project development. I was very much impressed and enjoyed working with the team that provided detailed, and regular updates on project progress, challenges, and solutions”*

**Chief Development Officer**

---

*“The information provided by the Biopharma Group team helped me to improve the quality of our product, and in particular helped me to develop more effective and efficient processes for transferring our products from research to the production stage.”*

**Director of Tech Transfer Department**

---

*“Theragenix has benefited from Biopharma Group services to develop a formulation suitable for lyophilisation. The project involved a freeze drying cycle and a series of analyses for stability studies. Both technical and commercial support has been very appreciated”*

**Chief Executive Officer**

---

*“Thank you for being so professional, helpful, innovative and friendly. We were extremely impressed with the quality of your service.”*

**Director**

# WHAT OUR CUSTOMERS SAY ABOUT US

*"We elected to work with Biopharma because of their full service and years of experience. They helped us with analysis and troubleshooting of our product and we were impressed by the quality and responsiveness of their scientists. We would definitely use them again."*

**Scientist**

---

*"Biopharma developed a successful cycle for us, their quality and technical support was excellent."*

**CMC Lead**

---

*"Biopharma helped develop our cycle, we are extremely satisfied with their quality and service and would thoroughly recommend them to others."*

**Lab Manager**

---

*"Biopharma Group quickly understood our radiopharmaceutical challenges and provided effective solutions. Their team is highly responsive, knowledgeable, and a pleasure to work with."*

**Chief Technical Officer**

# WHAT OUR CUSTOMERS SAY ABOUT US

*"We chose Biopharma because of their reputation and expertise in the field of lyophilisation and we were impressed with their overall excellent level of service. We would recommend them."*

**Extraction Scientist**

---

*"We worked with Biopharma Group for the development and deployment of an antibody freeze drying process to support preclinical studies. They rapidly provided technical insights to guide the design of the process development study and helped troubleshoot unexpected results. The team's experience was critical to the success of this project, and we benefitted from an open and collaborative approach throughout."*
